**Location: Latham Crescent Center Latham Crescent Dandenong**

**Tutor (1): Lolita Briones**

Our class involves exercises for what they call over 55 and older. Our aim is to develop physical activity and exercises habits at the same time doing it safely. We don't want it to be strenuous or too physical, we want it to be fun as well with good music. We use tools like weights, balls, resistant bands etc. We include mental exercises with brain teasers, Chinese whispers, energisers all done with actions. We end the class with short period of stretching, yoga or meditation. Hopefully as older members of the community it will keep as active, mobile and independent. There are more older people living today than any other time of history.

**211EXE10: Tai Chi**

**Location: Uniting Church Hall Birch Ave Dandenong**

**Tutor (1): Lolita Briones**

Tai-Chi is performed by millions of people of any age around the world to improve and maintain good health. I could not emphasised enough to my class the benefits of Tai-Chi if it's done regularly. The stretching, balancing, big breathing in and out and rhythmic movements. I suppose the slow movements are discouraging for some but in the long run this will give calmness, peaceful and relax attitude in meeting the day-to-day challenges. Tai-Chi comes in many forms and styles but definitely we are not doing the martial aspects of it. We do styles appropriate for the older population of the community. We include Shibashi movements similar to warm up Chinese exercises and now becoming popular Qigong. They are more healing movements for people with chronic existing medical conditions. And of course, we use beautiful music to inspire you with the movements. We finish the class relaxed and happier.

The tutor is very patient and will encourage you not to give up. Give it at least one semester. A toddler falls many times and takes more than one day to walk confidently on his or her own. Previously learnt dances are walked through before we dance to the music and many are still struggling with some part we stop and practice that section. The current dances are Boot Scootin Boogie; What a Feelin; Cowboy S; Peaches and Cream; Limes; Woman is Smarter; Smokey Places; Ghost Train.

On alternate Mondays the course covers the French Revolution, the rise of Napoleon Bonaparte and the ensuing Napoleonic Wars then the American Civil War The French Revolutionary and Napoleonic Wars of 1792–1815: The Napoleonic Wars of 1803–15 were amongst the longest and the most intense conflicts ever experienced in Europe. They destroyed five million lives. The French Revolutionary Wars of 1792–1802 wasted a further two million lives. The figure who casts his distinctive shadow across this period is Napoleon Bonaparte. This course covers the rise of Napoleon, the political environment in Europe at the time, the many coalitions formed to combat this move of enlightenment and the strategies and tactics of some of the most important battles fought. The American Civil war The American Civil war began in 1861 and finished in 1865. It started off with a desire of the Southern States for independence, The south was agricultural, its economy was based on the production of cotton, but where the problem lay was that the workers were slaves, that had been associated with both the north and south for many years before the war started. The ulcer that was created by the presence of slaves began when a privateer, named the White Lion bought 20 African slaves into America which was then a British colony. These slaves were seized from a Portuguese slave ship. The war was then only considered a punch up and would be over within a day or so. It was reported that a pocket handkerchief would be all that would be needed to wipe up the blood that would be spent in the first major battle at Bull Run, so confident that this battle would be just quick victory by the union forces that people came out to watch the show with their lady friends and picnic lunch, that was in July 1861. From then on till Lee surrendered to Grant this war had cost the American people over 700,000 casualties - so much for the idea that it would be over in a day
